

Your Benefits

Global footprint

- Global production units (6)
- Global technical service
- Local supply chain
- Local safety stock
- Long term commitment

Innovation

- Technology leader for PVOH globally
- Technical solutions from numerous R&D facilities
- Specialty polyvinyl alcohols
- Tailor-made products
- Pioneer in PVOH technology

Product quality

- Narrow specifications
- High solid content
- Very low impurities
- Low VOC levels
- Low ash content
- Low CO₂ footprint
- Strong product stewardship
- Commitment on product safety for use in food packaging

Adding value to your products – worldwide

Kuraray Poval™, Exceval™, Elvanol™ and Mowiflex™ are the trademarks for polyvinyl alcohols made by Kuraray. Their key characteristics — outstanding film-forming properties and high binding strength — add real value to your products. Our polymers are water-soluble, highly reactive, crosslinkable and foamable. They have high pigment binding capacity, protective colloid characteristics and thickening effects. The physical and chemical properties of Kuraray Poval™ make it ideal for a wide variety of applications, ranging from adhesives through paper and ceramics to packaging films. Many of our polymers are food contact-approved and thus suitable for food applications.

Kuraray produces its wide range of Kuraray Poval™ grades in Japan, Singapore, Germany and the USA. Kuraray's global production and service network make us your partner of choice for innovative high-quality PVOH resins.
